RIVER OF LIFE

## // INTRODUCTION

The Danube Cycle Path has run for over 40 years, through one of Europe's oldest cultural and diverse landscapes. From the former bishopric of Passau, one can reach the Slovak capital Bratislava by passing through the likes of Linz, the UNESCO City of Media Arts, as well as the romantic Wachau and the former imperial residence of Vienna. In between, picturesque sites reveal the many secrets of the legendary Danube region. The Danube Cycle Path, with its hardly noticeable gradients, is ideally driven downstream. While it is a fitting challenge for cycling enthusiasts, it also remains an enjoyment for families and those more leisurely inclined.

### // LENGTH

The Danube Cycle Path from Passau to Bratislava has a length of about 381 km and can generally be cycled on both banks.

### // NUMBER OF STAGES

The Danube Cycle Path is divided into 17 attractive stages across both riverbanks. The stages are between 18 and 68 km long and can be undertaken individually. On average, it takes about one hour for 10 – 20 km, depending on individual fitness and bike type.

### // BED+BIKE ESTABLISHMENT

Approx. 50 establishments between Schärding/Passau and Vienna have been approved by the ADFC as Bed+Bike establishments. In addition of secure bike-parking spaces, these facilities provide drying rooms for wet clothes as well as e-charging stations.

### // FABULOUS LANDSCAPES

Along the route, cyclists will encounter exciting landscapes such as the Danube-bend Schlögen or the Wachau-region, a UNESCO World Heritage Site. Equally, cities such as Vienna, Linz or Passau are also reached during the ride; as are the St. Florian Abbey and the picturesque Melk Abbey.

## // SPECIAL PHOTO MOTIFS

**In Upper Austria:** Special photo opportunities are i. a. the Silberzeile Schärding (Baroque Town Centre), the Danube-bend Schlögen, the Danube promenades Aschach and Mauthausen, the Engelszell-, St. Florian-, and Wilhering-Abbeys, Greinburg Castle, the city tower Enns and at night, the city of Linz.

**In Lower Austria:** Special photo opportunities include amongst others Basilica Maria Taferl, Melk Abbey, Dürnstein, Tulln's Donaulände with its trick fountains, Klosterneuburg Abbey, Au-Terrace near Stopfenreuth and the Marchfeld Castles.

## // FERRIES

Between Passau and Bratislava, cyclists can easily gain new impressions, by changing Danube banks by means of one of the 17 bike ferries. Complementary, there are also several bridges and water power plants, where one can cross the river.

## // INFO POINTS

Numerous information points along the Danube ensure that cyclists are provided with the most important information. These help you find suitable accommodation, restaurants, etc.

## // E-BIKE CHARGING-STATIONS & BIKE RENTAL SERVICES

At about 100 e-bike charging stations in Upper Austria, Lower Austria and Vienna, cyclists can charge their bike at any time. In addition, there are 50 bike rentals (many offering bike servicing) where bikes can be rented.

## // BOAT TRIPS

In order to truly get to know the Danube Cycle Path and its different regions from different perspectives, it may be worth taking a boat trip on River Danube or Inn. Info page 142/143.

## // LEGAL NOTICE

The term Danube Cycle Path is used both colloquially, as well for marketing purposes. To clarify, the Danube Cycle Path refers to the path that has been made available to cyclists along the Danube.

However, it is expressly pointed out that parts of the path are also used by other road users, e.g. by motor vehicles or by persons on foot. Across the entire Danube Cycle Path the StVO (Road Traffic Act) is applicable, including the obligation to drive on the right (hand side of the road).

The use of any paths and routes takes place at one's own risk and responsibility as well as, in particular, in consideration of the prevailing local weather conditions.

The WGD Donau Oberösterreich Tourismus GmbH and the Donau Niederösterreich Tourismus GmbH are not liable for the condition, state or traversability of the paths indicated in this folder. The list of companies included does not claim to be exhaustive.

## // FAMILY EXPERIENCES IN UPPER AUSTRIA

**Spend your holiday on the Danube Cycle Path and discover the diversity of the Danube Region.**

### **Schärding – Passau (16 km)**

You may start your bike tour already in Schärding where you can cycle along both banks of the Inn.

**Tip:** Inn boat trips.

### **Passau – Engelhartszell (28 km)**

Cyclists ride along either on the left or right bank; on the right bank is a separate bike path. At the Jochenstein power plant, awaits the water world »Haus am Strom.« Continue either on the left or right bank. From the left bank, cyclists can reach Engelhartszell by bike ferry. The Mini Danube is located in Engelhartszell.

**Tip:** Three absolute highlights are located away from the Danube: the Via Scardina in Schärding, the Baumkronenweg (Treetop Path) in Kopfing and the IKUNA Nature resort. There is much to discover along the tree tops and within the nature park.

### **Engelhartszell – Schlögen (14 km)**

In Engelhartszell, it is possible to cycle on the left or right bank towards Schlögen. Flat gravel banks invite you to pause along the Danube. In Freizell, Anton Witti invites to enjoy a boat trip in a Zille-boat. In Schlögen, you can discover the new Roman park with playground.

**Tip:** Be the captain of a barge, 'RömerBurgus Oberanna' Roman fortress

### **Schlögen – Aschach/Landshaag (26 km)**

From Schlögen continue on the left or right bank towards Aschach/Landshaag. If cycling along the left bank, one can ferry across from Au to Grafenau. End the day along the Danube promenade in Aschach, or on the Danube beach in Landshaag.

**Tip:** watch the glassblower Thom Feichtner, Schoppermuseum

### **Aschach/Landshaag – Linz (27 km)**

From Aschach continue to cycle along the direction of Feldkirchen. After 8 km you will reach the action-packed lake in Feldkirchen. The tour then continues to Ottensheim. The stage Ottensheim-Linz is best taken by train. In Linz, the Mural Harbour graffiti exhibition and Ars Electronica Center await. The

Grottenbahn-train on the Pöstlingberg-mountain provides for magical moments.

**Tip:** Donaibus Ottensheim – Linz: Hourly from May to September

### **Linz-Naarn/Au (30 km)**

In Linz, continue on the left bank towards Naarn/Au. At the power plant Abwinden/Asten cross the Danube towards St. Florian Abbey; then continue cycling towards Enns. In Enns, visitors can admire the oldest city in Austria. At this point either choose to spend a night in Enns, or take the bike ferry to Mauthausen and cycle towards Naarn/Au. Experience the Shopping-City Perg. **Tip:** Fun and games on the Danube beach in Naarn/Au with a viewing tower and the nature discovery trail across the meadows (Au-Lehrpfad)

### **Naarn/Au – Grein (30 km)**

From Naarn/Au continue to cycle towards Grein. After 14 km cyclists will reach the Celtic village in Mitterkirchen. Here, experience up close how people lived 2,700 years ago. Equally, the lake invites to linger. Once in Grein, you can stroll through the town square and end the day with an ice cream. **Tip:** Live like the Celts in Mitterkirchen, lake Mitterkirchen

## // FAMILY EXPERIENCES IN LOWER AUSTRIA

### Biking for Kids – Spitz (22 km)

Start at the roll ferry pier in Spitz and cycle comfortably along the Danube cycle Path, on the left bank towards Weißenkirchen. In Weißenkirchen, visitors can swim in the outdoor swimming-area next to the boat station. Continue to Dürnstein, where cyclists cross the Danube via the motor ferry. The ferry will dock right next to a fine sandy beach in Rossatz. On the Danube Cycle Path, head upstream to Mitterarnsdorf, where one can take a taxi to the other bank of the Danube.

**Tip:** Outdoor bathing places in Weißenkirchen and Rossatz

### Biking for Kids – Emmersdorf (8 km)

The tour starts at the tourist information point at the roundabout in Emmersdorf. Cycle upstream along the Danube and enjoy beautiful views of the Melk Abbey as well, as the large white Danube ships. Along the way, pass Luberegg, the longest natural sandy beach along the Danube. Ideal for children as there is almost no current. A little further along the path is the leisure center Weiten-

egg, with a family-friendly beach offering pedal boats, surfing opportunities and much more. Along the same way, the route returns to the starting point of the tour. **Tip:** Pedal boat ride in the leisure center Weitenegg

### Adventure tour through the Garden-city Tulln (15 km)

All in all, 6 exciting and child-friendly stations lead through Tulln. Just follow the signs »Radeln für Kids«, entry is possible at all stations of the route. In the GARTEN TULLN (Garden Tulln), children can let off steam at the largest natural playground in Lower Austria and climb the treetop trails. The Aubad-bath and the recreation park are a paradise for those keen for water slides, a floating octopus, a sandy beach and adventure streams.

**Tip:** Play in the largest natural playground in Lower Austria in the GARTEN TULLN (Garden Tulln)

### Children cycle route – Bike experience »Au« – With Betty Bernstein through the Au-region from Stockerau & Wördern (19 km)

From the Stockerau station, cycle on three different routes through the Danube floodplains in the direction of Altenberg and the Greifenstein power station, where one learns interesting facts about the Danube

and the Au-flood plains. Entry points are possible at the stations Stockerau and Greifenstein; the routes are signposted.

**Tip:** Discover interesting facts at each adventure stage

### Petronell – Bratislava (26 km)

Start the tour in Petronell-Carnuntum with the inviting Roman city of Carnuntum. At its original location, the essential architectural types of a Roman quarter were reconstructed including its historical context: a town house, a splendid city villa and a public spa complex. Back along the bike path, follow the main road in an easterly direction until you arrive in Bad Deutsch-Altenburg. Continue then towards Hainburg and Bratislava. In the Slovak capital, visitors can, for example, explore the Devin Castle or stroll through the old town.

**Tip:** Experience the Roman era up close in the Roman city of Carnuntum

Further information on the tours can be found with this QR code or at [www.donau.com/touren](http://www.donau.com/touren)

## // DANUBIAN LIMES UNESCO WORLD HERITAGE SITES IN UPPER AUSTRIA

The Romans certainly left their mark on the Danube region. Set off on a journey back to the Roman Empire as you explore the Danubian Limes UNESCO World Heritage Sites.

### // PASSAU – SCHLÖGEN (42 km)

The route begins at the former customs border Batavis and leads along the right bank of the Danube across former trails of the Roman Limes-border and past two small castles to the natural wonder, the Danube-bend Schlögen. The RömerBurgus – the best preserved Roman building in Upper Austria – awaits in Oberranna.

#### HIGHLIGHTS:

## // SCHLÖGEN – LINZ (56 km)

Follow the Danube along either bank and continue with a ferry from Ottensheim to Linz. At the end of the Eferding basin you will find the natural »Linzer Pforte-Gate«, after which, cyclists will have reached Linz, the Roman trading hub Lentia.

#### HIGHLIGHTS:

Schlossmuseum Linz: primitive and early history, Roman Age, Middle Ages and the Modern | permanent exhibition

## // LINZ –STRUDENGAU (62 km)

In Linz, cycle along the left bank towards Mauthausen. At the power plant Abwinden/Asten, the Danube is crossed and the route continued on to Enns. **Tip:** A worthwhile detour is the Abbey St. Florian! The Museum Lauriacum in Enns holds one of Austria's most important cultural & historical collections of Roman times. In Enns, cross the Danube with a bike ferry to Mauthausen. Mitterkirchen offers an insight into the pre-Roman Hallstatt culture. The stage ends in Grein.

## // A WATER ELEVATOR AND THE GREEN LIZARD

L

The first question you need to answer is whether you like to start your first stage on the left or the right side of the Danube. No matter what choice you make: Before you start, you have a lot of time to visit **Passau's sights** like the old town, the residence and St. Stephen's cathedral (q.v. E1-S). As soon as you crossed the Ilz on the Luitpold-bridge, two fortresses, **Ober-** and **Niederhaus**, wave you goodbye from the Three River City. Oberhaus, which used to be the residence of the bishop of Passau, is now hosting a city museum and a medieval museum. Tip for culture lovers: Start your bike tour already at the **baroque town Schärding** with the marvellous baroque town centre **Silberzeile**. From there you may comfortably reach Passau and the Danube Cycle Path. Soon after you can already enjoy the view of the very impressive and sunny south hillsides of the **nature reserve Donau-leiten**, home to cyclamen, the gorgeous Turk's cap lily and the shimmering green lizard. Through the village Erlau, we continue the journey to **Obernzell**, where, in a bulky castle just next to the river, you

can visit a pottery museum. As you continue your journey, you are accompanied by the view of the enormous castle keep of the **fortress Vichtenstein** (12<sup>th</sup> century) on the other side of the river. On that side you can also see the Haugstein (895 m) looming out of the »Sauwald« (forest), as it is the highest exaltation of the area. The **Nature Adventure Centre »Haus am Strom«** was being shaped like »wave and pebble stone«, by the architects and is welcoming you amongst others with a special water elevator. Additionally, a variety of interesting and fun tours through the nature can make the flora and fauna of the area more approachable to you. If you feel drawn to the **Engelszell Abbey** or **SCHÜTZ Art Museum** on the other bank of the river afterwards (see also E1-S), you can cross the Danube via the Jochenstein Power Station.

On the north bank however you will soon reach **Niederanna** (Danube Bridge), where a local barge constructor is offering you a boat trip on the Danube. Now you are close to the ferry that will bring you to **Schlögen**.

## // FROM THE BAVARIAN VENICE TO THE GIANT OF THE DANUBE

R

The **THREE\_RIVER\_CITY** Passau, situated at the confluence of Danube, Inn and Ilz, gives you a grand kick-off to a wonderful bicycle tour. Take your time and discover the sights of the »**Bavarian Venice**«: Explore the baroque **old town**, which was given a Mediterranean imprint by its Italian constructors. Or take a look at the residence of the prince-bishop, which hosts the »**Museum am Dom**«. Additionally, Passaus St. Stephen's Cathedral is definitely worth a visit and is situated directly at the route you are taking. In there, you will find the largest organ that has ever been made for a cathedral, consisting of nearly 18,000 pipes. And, following your route, you will find the **glass museum**, hosting an exhibition of more than 15,000 objects made out of Bohemian Glass.

And all this is only the start of this diversified stage. The view of the **fortress Krämpelstein**, laying high above the Danube on a rock, is more than thrilling. Legend says that here, on the »Schneiderrössl«, a tailor fell and died when he was about to bury his goat in the Danube. Just as exhilarating are the gothic mural paintings in St. Pete's Church

in Pyrawang. Though made in the 14<sup>th</sup> century, the paintings seem quite modern.

For smaller travellers on the bicycle the »**Water Adventure Mini-Danube**«, located in the charming village Engelhartszell, is recommended. A themed playground and the »**Giant of the Danube**«, a nearly two meters long beluga in the big aquarium, are definitely making it worth a visit. Maybe you also find time to visit the magnificent »**Trappist Monastery Engelszell**« with its beautiful rococo church and the picturesque garden of the monastery. High-calibre works of art from classical to modern and international contemporary art are on display at the **SCHÜTZ Art Museum**.

When approaching **Schlögen**, you can have a beautiful view on the **ruins of the medieval fortress »Haichenbach«** on the other side of the Danube. It is located on the back of the mountain around which the Danube forms its curves and thereby creates the famous »**Schlögner Donauschlinge**«.

# Treasures along the river

A Danube-journey in search of the extraordinary

People, who have set themselves the goal to dedicate their creativity to the extraordinary, live and work in the valley of the Bavarian-Upper Austrian Danube region from Passau to the Strudengau. They create "Treasures & Delicacies" (Kostbarkeiten & Köstlichkeiten), which are outstanding in their idea and quality. The ran-

ge of treasures reaches from traditional barge builders to masters of chocolate and confectioners; from one of the last glassblowers to courageous wine-growing pioneers; from vegetable farmers, who revive old kinds of vegetables and finally to chefs, who prepare regional dishes for their guests.

## // VIEWS AND INSIGHTS

L

Start this day's stage with a little hike to the »**Schlögener Blick**«, 30 minutes above the village Schlögen. Up here you have a marvellous view of the famous Danube-Bend Schlögen, which is changing its direction two times into the opposite direction, and thereby creates this picturesque scene. After a short ride with the ferry Donaubus to Grafenau, you are already back on your bikes and ride along the forest slopes of this free meander.

Going past the little village of **Obermühl**, you soon reach the end of the Danube-Bend Schlögen near **Untermühl**, where you are again taking a short ferry trip. On a wooded rock you see the **Castle Neuhaus** (private property) rising up above you, whose edgy tower near the bank of the Danube once helped to close up the river with chains. A bit further down the stream, near **Unterlandshaag**, the leisure country Feldkirchen leads you to the Campanile in the middle of the centre. Wonderful panorama offers a small detour to the four lakes, which provide a motoric park, the water sports centre JETLAKE, a golf club and a campsite.

After a while the **Castle Ottensheim** is welcoming you from higher up on a hill, just above a village with the same name. You have already done most of this stage – therefore you have a lot of time to discover the market place of Ottensheim with its charming houses from the 16<sup>th</sup> century. Shortly after you arrive at your destination of the day: Linz.

## // SHIPS & CATHEDRALS – CULTURE ON THE WAYSIDE

R

Before you start this stage on the south bank of the Danube, you should walk up to the »**Schlögener Blick**«, located 30 minutes above the village Schlögen. From up here you can enjoy the wonderful view of the **Danube-bend Schlögen**. After you gave yourself an overview, you will get to know the forest slopes of this free meander, called the »Donauleiten«, at close range.

Natural trails take you past **Inzell** and **Kaiserau**, where Castle Neuhaus soon rises up on a rock. Arriving in the small market town of **Aschach**, explore the worthwhile center with its age-old town houses, whose façades and courtyards are from the Gothic, Renaissance and Baroque periods. In the modern »**Schopper-boat Museum**« you will learn interesting and curious things about the old craft of shipbuilding, and in the Old Parish Church, discover the alleged healing powers of the »Danube Cross«.

From Aschach it is not very long until you reach **Eferding**. The history of this little city a bit aside

of the Danube Cycle Path starts way back in Roman Times. Its main square is counted as one of the most beautiful in Upper Austria, as the houses haven't really been altered since the Middle Ages. Despite its size, the city's church has got the by-name **Eferding's Cathedral**. Just as much as this church the magnificent **Castle Starhemberg** with its museums and exhibitions is definitely worth a visit. **Tip:** If you're interested in seeing a real-life ski jump, a detour to the Hinzenbach ski jump arena is well worth the journey!

The **Cistercian Abbey of Wilhering** (founded in 1146) with its Rococo church, its **Fritz Fröhlich collection**, »**Fröhlich meets Sulzer**« at the **abbey museum**. After your fleeting-visit you can board the ferry to the northern shore in **Ottensheim**, where after you'll be able to enjoy the last cycle stage to **Linz**.

## // PILL MAKING AND CELTIC TOMBS

L

The Upper Austrian capital **Linz** seduces you with its variety of interesting sights to an extensive sightseeing tour: Through the **old town** including the **main square** and the »**Landstraße**«, to the **Castle Museum**, the **Botanical Garden**, **St. Mary's Cathedral**, the **Musical Theatre at the »Volksgarten«**, **Lentos Art Museum** and the **Ars Electronica Center** – just to name some of the most important sights. Sure enough the »**Pöstlingberg**«, another landmark of the city, is going to wave goodbye when you leave.

Soon you pass **Steyregg** with its beautiful Castle. Its history dates back to the 11<sup>th</sup>/12<sup>th</sup> century, but it only opens its gates for events taking place there.

A bit aside of the Danube you are now biking to **Mauthausen**. Once founded by the Babenberger as a toll booth (this is also where the name is coming from) it attained a sad popularity for being the habitat of the biggest Austrian NS – concentration camp (memorial place!). In the **Castle Pragstein** you can learn everything you ever wanted to know

about making pills and mixing ointments, as it hosts Austria's only **pharmacy museum**.

Close to **Au on the Danube** there is a possibility to visit the vibrant city **centre of Perg**, where there are many restaurants and cafes. Tip: Enjoy a shopping-tour in Perg! A ride along the R30 Aist-Naartal cycle path is well worth the detour. The path runs from Au an der Donau to Schwertberg and Perg then back to Au. The next halting place can be combined with a visit to the **Celtic village of Mitterkirchen**, an open-air museum that reflects life in the year of 700 BC. Not far away you can also visit the **monastery Baumgartenberg**, whose church is counted as a jewel of the baroque age due to its magnificent stuccowork. Unhurriedly, the river is now accompanying you to **Grein**, the »Pearl of the Strudengau«.

## // A CULTURAL BREAK IN THE SHADOWS OF THE CITY TOWER

The **Old Town** with its **Main Square** and the »**Landstraße**«, the **Castle Museum**, the **Botanical Garden**, the **Music Theatre at the »Volksgarten«**, the **Lentos Art Museum**, the **Ars Electronica Centre**, the **Pöstlingberg Experience**

– there is so much to visit in **Linz**... If leaving is difficult for you, comfort yourself with the thought that this stage is going to have a »cultural (inte)rest« for you in Enns.

Before that you share the way with the north trail of the Danube Cycle Path until you reach **Steyregg**. After you crossed the river to the south bank by the power station Abwinden-Asten, you have two promising possibilities for a side trip: One leads you to the beautiful **choir monastery St. Florian** with its world famous Bruckner – organ and the Altdorfer altar. The other possibility (near Enghangen) leads you to **Enns**: This little city is full of history and is one of Austria's oldest cities, whose guided tours are a perfect way of discovering every part of the city. The remains of the **old city fortification**, the 60 meter high **city tower** built in the age of the

reformation (16th century) and the baroque and renaissance houses on the main square enchant even-handedly. And maybe you can even pay a short visit to the Roman Museum and the Castle Ennsegg.

Shortly after Enns, you reach the lower Austrian »**Mostviertel**« (= cider district), thus you will find inns offering this special cider - a perfect opportunity for a break. Once you reached **Wallsee**, you are invited to look at another **Roman Museum** which is showing how long the history of this region really is. An eventful history, in which the **Castle Wallsee**, once inhabited by the Habsburger-archduke Franz Salvator, was playing an important role. Until you reach **Ardagger**, the destination of this stage, the Mostviertel is showing you its most beautiful side.

## // WHERE SIDE TRIPS PROMISE VIEWS

L

Before you set off you should take a stroll through – maybe even a guided tour of – charming **Grein**, walking across the picturesque old main square to the historic **city theater**, to the **Upper Austrian Navigation Museum** or to **Greinburg Castle**. A visit to the nearby »Stillensteinklamm«, a ravine with impressive rock formations, would be another option.

Soon you will pass the densely wooded slopes of the **Strudengau**, a section of the Danube Valley whose name comes from the swirls in the river (»Struden«), which used to pose a problem for mariners.

Near **Struden/St. Nikola**, the **Werfenstein ruins** rise over the Danube. Chains were thrown from here to **Wörth Island** to stop ships from going through in the past. Following romantic Donauleiten and after passing **Sarmingstein** and **Hirschenau**, you reach **Personbeug**, home to what is probably one of the most famous Austrian **Danube power stations**. It is open for guided tours (advance reservations required). Two more side trips will lure you away from the Danube. Near **Marbach** you can, if your

bike and you are ready for some uphill riding, visit the pilgrimage church **Maria Taferl**. At this beautiful Baroque basilica you can enjoy the breathtaking view of the Danube Valley.

Near **Klein-Pöchlarn** you can take a trip to nearby **Artstetten**. In the castle you can see a documentation of Archduke Franz Ferdinand's life. The successor to the throne, who was killed in 1914 in Sarajevo, and his wife are buried in the crypt that is also located there. At the final destination of this stage, **Emmersdorf an der Donau**, the Danube bridge allows a visit to the sights in **Melk** on the other side of the river. (see Page 73)

We recommend: In **Grein** you take the ferry (or shortly before Grein the bridge) to the south bank and continue there on the Danube Cycle Path. At the **Visitor Power Plant Ybbs-Personbeug** you will be able to reach the northern shore again. The **Danube-shore trail** takes you from Grein to **Sarmingstein**.

## // FROM THE BICYCLE MUSEUM TO THE CITY OF THE NIBELUNGS

R

**Ardagger** is one of the main towns in the Mostviertel. If you are an art enthusiast, you will want to visit the **church of the former monastery**, which has the oldest figural glass painting in Austria, the »Margaretenfenster« made in the 13<sup>th</sup> c. If you prefer sports you have a choice of many watersports and the recreational offerings at the »**Donauwellenpark**« (= Danube wave park) right along the bike path (beach volleyball, wall climbing, etc.)

Then you proceed through the scenic **Strudengau**. This narrow section of the Danube Valley is lined with high and densely wooded hills. Every now and then you find inviting **sandy beaches** along the river and little towns such as **Höggang** and **Freyenstein** to add variety to your journey.

Right after the **Visitor Power Plant Ybbs-Persenbeug** (guided tours upon prior registration) you will reach **Ybbs**, a small city with a fascinating **bicycle museum**. It documents all the favorite two-wheelers, from the wooden draisine to the Waffenrad, an Austrian bicycle from the final dec-

ades of the Austrian Empire. The Renaissance burgher houses in the **historical center** are enchanting, as is **St. Lorenz's Church** with its impressive reticulated vaulting and an organ that Mozart himself signed during a visit to this city in 1767.

After passing the towns **Sarling**, **Säusenstein** and **Krummnußbaum** you arrive at **Pöchlarn**, City of the Nibelung. Its sights include the birthplace of the painter **Oskar Kokoschka** (exhibitions) and a **carpentry museum**. The Nibelung memorial reminds visitors that this ancient epic was also set in Pöchlarn and along the Danube itself. 45 short minutes later you reach **Melk**, the western gateway to the Wachau.

Especially recommended is the **Melk Abbey** founded by the Benedictines in 1089. The magnificent library, with its 85,000 volumes, and a ceiling fresco, by Paul Troger, accommodates several magnificent items including a fragment of the Nibelungenlied-song.

## // THROUGH THE ENCHANTED GARDEN TO A ROMANTIC LANDSCAPE

L

In **Emmersdorf**, the Danube Bridge makes a detour to the sights of Melk located on the other side of the river. A particular highlight is the **Melk Abbey**, built according to the plans of Jakob Prandtauer, with its Kaiserstiege-stairs, the Marble Hall and the Abbey Library with frescoes by Paul Troger. As visitors leave Emmersdorf on the Danube, they will see impressively why UNESCO declared the **Wachau-region**, a World Heritage Site: You can see mighty cliffs arise out of steep forested slopes, vineyards gently curving their way through the landscape, waves of the Danube playing on sandy beaches, ruins full of history, old villages and hospitable inns lining your way. In the ancient village of **Aggsbach** you have an excellent view to the ruins of **Aggstein Fortress** on the other side of the river. Legend has it that terrible robber-knights met their fate in justice here. **Willendorf** became famous through an important archaeological find: the Venus of Willendorf. This little sculpture of a woman reminds us that this area has been populated for 50,000 years. The sculpture is now displayed in the Museum of Natural History in Vienna. In **Spitz** you are enticed to take »culture break« by old winemakers' houses, 16<sup>th</sup> c

estates, a **Late Gothic church**, the **Hinterhaus ruins** and the **navigation museum**. You see (stone) rabbits »running« along the roof ridge of the fortified St. Michael's Church (**Weißenkirchen municipality**) – they were once allegedly driven up there during a snowy winter. In the local **Wachau Museum** you can gaze at the elaborate Goldhauben traditional costumes. In **Wösendorf**, the main attraction is the Late Baroque parish church with its altarpieces by Kremser Schmidt (Martin Johann Schmidt, 1718 – 1801). **Dürnstein** is right on the Danube and surrounded by lovely vineyards, wooded slopes and rock formations, it is one of Austria's most popular holiday destinations. The blue tower of **Dürnstein Abbey** can be seen far and wide and Richard the Lionhearted was once kept prisoner in the **castle (now ruins)**. Soon after passing by the wine town of **Unterloiben**, you arrive in **Krems**, the final destination of this stage.

Stroll through the **Ober- and Under-Landstrasse-street**, visit the early Gothic **Gozzoburg**, the **Kunsthalle**, the **Karikaturmuseum** or the **State Gallery of Lower Austria**.

## // BAROQUE MONASTERY AND ROBBER-KNIGHT FORTRESS

R

This stage takes you by the **Dunkelsteiner Wald**, one of the biggest contiguous woodlands in Middle Europe. The advantage of the route on the south river bank is the sweeping view of the grand landscape of the Wachau, a UNESCO **World Heritage** landscape on the opposite bank. It has enchanting wooded slopes interspersed with rocks, terraced vineyards and amiable villages. Before leaving **Melk**, the »Gateway to the Wachau«, behind you, make sure to visit the Benedictine **Abbey of Melk**, founded 1089, with its magnificent **library** of 85,000 books, a ceiling fresco by Paul Troger and a fragment of the Lay of the Nibelung.

This old epic reminds you just how steeped in history this area is, a fact also attested to by prehistoric finds in **Schönbühel**. You pass through this town with its charming **castle** on the bank of the Danube on your way to **Aggstein**. There the legendary 12<sup>th</sup> c castle ruins of the same name entice you to climb 300 meters up the steep hill. The robber-baron Jörg Schenk once resided here. He forced the ships on the Danube to stop and pay him a toll. Those

who failed to do so were put on a high rock ledge within the fortress called the Rosengärtlein (Garden of Roses) and left to starve to death.

Relax and simply enjoy the scenery until **Mautern**. Along the way, you encounter villages graced with charming churches and old wineries and farmhouses. Near **Bacharnsdorf**, you see the remains of fortifications that formed part of the old Roman limes along the Danube, now incorporated in buildings and gardens. Swimming fun at the Danube beach **Rossatzbach** with a view overlooking **Dürnstein**.

Having reached the destination, visitors realize that the ancient Romans played an important role in the history of **Mautern**. This is evident not only across the remains of the **Roman fort Favianis**: The **Roman Museum** in the Baroque Schüttkasten of the castle retells of the importance of the place in antiquity, while pretty town houses tell of the flourishing of the city in the 15<sup>th</sup> and 16<sup>th</sup> centuries.

#### 6 RIGHT BANK MAUTERN TO KLOSTERNEUBURG

## // FROM MEDIEVAL CITY TO A CITY OF GARDENS AND ART

L

**Krems** is a center of wine, commerce, shopping, culture and education and has an enchanting location: The **historical center** (also part of the Wachau, a UNESCO World Heritage landscape) extends between the Danube and the vineyards of the Krems Valley. **Steiner Tor**, a town gate and landmark of Krems since 1480, attests to the eventful history here, as do the many burgher houses from the 16<sup>th</sup> c, when Protestant merchants brought the city great wealth. Stroll through the **Obere and Untere Landstraße**, pay a visit to the **early Gothic Gozzoburg Castle**, the **Kunsthalle**, the **Karikaturmuseum**, or the **State Gallery of Lower Austria**.

Soon after Krems you see another landscape on the horizon: a plateau known as **Wagram**. It is dominated by a patchwork of vineyards that give way to wavy fields and shady ravines carved out of the loess soil over millions of years by water. The deep loess creates perfect conditions for fine full-flavored, full-bodied wines, including the famed Grüner Veltliner but also the lesser known Roter Veltliner.

**Vinothek Weritas** is a wine shop in Kirchberg am Wagram that carries 250 wines by 50 top winemakers. Kirchberg also has an **Alchemist Park** with permacultural plantings. Close by is the **Pleyel Museum** in Ruppersthal. Ignaz Joseph Pleyel was the most famous favorite son of Wagram. He left this romantic wine village for Paris around 1800 to create a furor as a composer and piano builder. Visitors can explore Wagram on discovery tours that follow five themed cycling routes.

Finally, you arrive in Tulln. Right at the outskirts of the city you pass the premises of **GARTEN TULLN**, an ecological world of gardens unlike any other in Europe with over 65 model gardens plus a host of other attractions. At the **Egon Schiele Museum**, the **Egon Schiele birthplace** and the **Egon Schiele Special Theme Trail**, you can gain fascinating insights into the life of this internationally renowned painter. Tulln's **Donaulände** is an attractively landscaped promenade along the Danube and takes you in a matter of minutes from one sight to the next, among them the **Tulln Roman Museum**.

## // EXPERIENCE THE VASTNESS OF THE TULLN BASIN

R

The ancient Romans played a vital role in the history of **Mautern**. That is evident not only from the ruins of the Roman fort Favianis. The **Roman Museum** in the Baroque granary shows the significance of the community in ancient times whereas the handsome **burgher homes** attest to the golden age of Mautern in the 15<sup>th</sup> and 16<sup>th</sup> c.

Next comes the **Tullnerfeld**, which has all kinds of surprises in store for you. The region is rich in landscapes and habitats, in delicacies and specialties, in art and culture. The Tullnerfeld Bike Path invites you to cycle your way to myriad interesting day trips. If time allows, we encourage you to visit **Traismauer**, an old town steeped in the history of the Romans and the Nibelungs. In the heart of town, the Römertor (Roman Gate) attests to Roman times, as do the Hungerturm (Hunger Tower) and the former Roman fort – today an elegant castle with wine shop. Enjoy a tasty meal of **carp à la Sitzenberg** or relax at the summer theater festival at **Sitzenberg Castle**. Tullnerfeld is home to typical towns like **Atzenbrugg**, where the ingenious composer of art songs

Franz Schubert made music or **Rust** with the Leopold Figl Museum as well as **Langenrohr** with the Josef Reither Museum.

On your way to Tulln, you pass **Zwentendorf**, home to the only nuclear power station in Austria, which was never put into operation, however. **GARTEN TULLN** with its more than 65 show gardens, a 30 m high **treetop trail** and the **Wasserpark** (water park with rental boats) is just off the bike path, as are the Austrian painter **Hundertwasser's ship** »Regentag« (Rainy Day) and the Tullner **Aubad**, wonderful for swimming and relaxing.

After Tulln, you see the chain of hills comprising the Vienna Woods, which suddenly extend all the way to the bank at the Danube bend in **Greifenstein**. The lush old arm of the Danube at this location is an enticing place for a swim. The wine town of **Klosterneuburg** is not at all far away from here. **Klosterneuburg Abbey**, founded in the 12th century with the treasury and the four-story basement of Austria's oldest winery, is definitely worth a visit.

## THE DANUBE TO YOUR FEET

The Wachau World Heritage Trail gently presents visitors the most beautiful places of the Wachau. 14 stages spread over approximately 180 kilometers of varied trails. 110 km of the Nibelungengau trail runs along the North- and South-banks of the Danube. 8 stages connect promising charming landscapes with historic destinations. The long-distance Hiking Trail Kremstal-Danau connects 15 stages along a route of around 100 km, guiding nature lovers, gourmets and wine enthusiasts through the region.

## MOBILITY IN THE WACHAU

**Nextbike** | Rent a bike 24 hours a day at rental stations of the rental bike system Nextbike.

**Travelling without a car** | At the info stations Melk, Emmersdorf, Spitz and Krems, owners of the Niederösterreich-Card will obtain a free day ticket which entitles them for a free ride on all buses and ferries.

**Wachau train** | A special gem is the Wachau train! The over 100-year-old railway line runs directly through the world heritage region Wachau.

**E-Mobility** | You can explore even the most secret corners of the Wachau in comfort with an electric vehicle.

**Wachau bus lines** | Bus routes 715 and 720 run along the Danube Cycle Path route in the Wachau region.

## // MODEL GARDENS, PIED PIPERS AND RECREATIONAL ISLANDS

L

Take a history tour of **Tulln an der Donau**, a town known for its gardens and art: You will explore, among other things, the **Church of the Friars Minor** in Late Baroque style plus the parts of Tulln dating to Roman times. At the **Roman Museum** you find out even more about this period, when this town was still called Comagena. Visits to the **Egon Schiele Museum**, the **Egon Schiele birth-place**, a walk on the Egon Schiele Thematic Trail or through **DIE GARTEN TULLN** (show gardens, tree-top trails, water park) require a little more time.

You then head for Vienna, pedaling by the extensive **Stockerau Au**. At the Greifenstein power station, you may want to take a break to visit nearby **Stockerau**, a town known for its summer theater. Climb the church tower there, for instance. It is Lower Austria's highest. You see the two fortresses **Greifenstein** and **Kreuzenstein** on either side of the Danube initially far off, then looming ever closer. Soon after passing the Greifenstein power station, you arrive in the **Korneuburg**, »Town of the Pied Piper«. Legend has it that a Pied Piper rid Korneuburg of rats

but was cheated out of his pay. To get revenge, he enticed the town's children away. The **Pied Piper Fountain** in front of the Neo-Gothic **town hall** is a reminder of this tale. The **main square** (Hauptplatz) is lined with patrician homes and dominated by the massive medieval **city tower**. After a look at the **Augustinian Church** with its ceiling fresco by the 18 c Austrian Rococo master Franz Anton Maulbertsch, you leave this small town. Before you know it, **Vienna** comes into sight.

When you finally cross to the **Danube Island**, you know you are on Viennese soil. This 21 km long island was built between 1972 and 1988 as part of a flood control system and recreational area for Vienna and its now nearly two million people. That explains why you pass inviting beaches, playgrounds and grilling sites on the last few meters before reaching the **Nordbrücke**, the bridge that is your destination for this stage. Vienna offers a wealth of sights – such as **St. Stephen's Cathedral**, the **Kunsthistorisches Museum Vienna** and the »**Prater**«.

## // TÊTE-À-TÊTE OF CULTURE AND NATURE

R

Make sure to take time for a tour of **Klosterneuburg Abbey**, which was founded in the 12<sup>th</sup> c. At least take a look at its treasury, which holds the altar of Verdun from 1181 and is definitely worth seeing, or visit the four-story cellars of the abbey, which is Austria's oldest winemaker. **Vienna** is only a stone's throw away from the abbey.

If you choose not to circumvent Vienna via the Nordbrücke (bridge), you soon reach the so-called »Danube Canal« on the south bank, which takes you straight into the **center of the city**. After freshening up in a bicycle-friendly hotel of your choice (q. v. [www.vienna.info](http://www.vienna.info)), you are free to explore this grand city. You can visit a vast variety of attractions such as **Schönbrunn** with its palace, zoo, palace grounds and Gloriette, Vienna's historical center with **St. Stephen's Cathedral**, the **Hofburg** (the Imperial apartments, Sisi museum, Treasury, Spanish Riding School), the **Kunsthistorisches Museum Vienna**, the graphic collection **Albertina** and the **Museums-Quartier**. Other great sights awaiting you are

**Belvedere Palace**, the **Prater** with its **Giant Ferris Wheel, Art Nouveau**, cafés and **Heuriger** wine taverns.

If you leave the city along the north bank, you reach **Lobau** – a part of the **Danube Wetlands National Park**. These wetlands form a unique natural habitat for beavers, kingfishers and even gray sea eagles and extend to the Austrian-Slovak border. It is one of the biggest intact areas of wetlands in Central Europe. You can find out details at **Orth Castle**, which is just beyond **Schönau**. The **schloss-ORTH National Park-Centre** is housed in this pretty castle (field trips, boat tours, local museum). The castle island has an interactive wetlands exhibition complete with underwater observation station. After a ferry ride over the Danube you arrive in **Petronell-Carnuntum**. Before reaching this town, you pass Austria's largest Roman landmark, the »**Heidentor**« (»Heathen's Gate«), the ruin of a 4th c triumphal monument. The **Roman city of Carnuntum** is well worth a visit with its authentic reconstruction of part of a Roman city.

# *Cycling holiday*

## *by the Danube in Lower Austria*

The regions by the Danube have a great deal to offer on a cycling holiday, even away from the Danube Cycle Path. Starting out from Wachau, Tulln and the Carnuntum region, there is the option to explore the cultural and landscape highlights in the surrounding area. Bikes can be hired in many areas. For leisure cyclists, there are routes running along flat cycle paths and side streets and for more ambitious bikers, there are mountain biking tours through the hinterland on offer, packed with views.

Cycling holiday offers can be found at: [www.donau.com/pauschalen](http://www.donau.com/pauschalen)

## // APPEALING CONTRASTS

L

Vienna has a wealth of sights and a kaleidoscope of impressions are probably still running through your mind: **Schönbrunn Palace** and zoo, the historical center of Vienna with **St. Stephen's Cathedral**, the **Hofburg**, the **Imperial Apartments**, the **Sisi-Museum**, the **Treasury**, the **Spanish Riding School**, the **Albertina**, **Kunsthistorisches Museum** and **MuseumsQuartier** and further afield, **Belvedere Palace**, the **Prater** with its **Giant Ferris Wheel**, **Art Nouveau**, **cafés** and **Heuriger** wine taverns.

But now nature awaits you. Even before you actually leave the city, you find yourself in the **Danube Wetlands National Park**, which extends between the agglomerations Vienna and Bratislava like a green belt (Information on the route diversion see Page 131). It is a natural habitat to over 800 different species of highly developed plants, to 30 mammalian species, 100 species of breeding birds, and about 60 different species of fish. For more details on the national park, stop off at **Orth Castle**, which is a ways away from the bike path. The **schlossORTH National Park-Centre** is housed in this Renaissance water castle with four towers. A

castle island has an interactive wetlands exhibition complete with an underwater observation station. The castle also houses a local museum on regional culture.

**Orth Castle** is among the »Marchfeld-Castles«- Soon you will get to know another one when you leave the Danube Bike Path at Eckartsau for a short side trip to **Eckartsau** hunting lodge. This residence of the last Austrian imperial couple Karl and Zita is now used for films, events, weddings and concerts.

Another side trip is advisable near **Stopfenreuth**. Leaving the riparian forests along the Danube, you proceed to »Au-Terrasse«, a plateau that affords great views of the river landscape (campground, unsupervised outdoor swimming area). The Danube bridge in **Bad Deutsch-Altenburg** is not far away now. It takes you to the south bank and shortly after to **Hainburg**. With its 2.5 kilometers of city walls, three medieval city gates and large towers from the early 13th century, the medieval city has one of the oldest and best-preserved city fortifications in Europe. Above the castle hill with the ruins, visitors will not only enjoy a lot of medieval flair, but also an impressive view.

## // ABOUT OLD ROMANS AND MODERN RESTAURANTS

R

Fans of the Middle Ages are enchanted by the **chapel of John the Baptist** in **Petronell-Carnuntum**, whose romantic rotunda dates back to the Templars. The **Roman city of Carnuntum** brings the ancient world alive for you. In this internationally unique outdoor museum, a city district has been built with reconstructed versions of the main types of buildings in historical context: a town house, a splendid urban villa with furniture, floor heating, a functioning oven, public thermal facilities as well as (since May 2019) the House of the Oil Dealer (Haus des Öländlers).

You also find the old Romans in the health resort **Bad Deutsch-Altenburg**, not only in the **Carnuntinum Museum**, which is the centerpiece of the Roman town of Carnuntum with its Ancient Roman statues, reliefs, mosaics, coins, weapons and trinkets, but also at **Therme Carnuntum**, a thermal springs resort where rheumatism has been treated since Antiquity.

Old **city gates** – Wienertor, Ungartor, Fischertor – as well as the large **castle ruins** lend a medieval charm to the city of **Hainburg**. Besides castle rock in town (**Schlossberg**), two hills dominate the landscape: Hunsheimer Berg and Braunsberg. The last one mentioned offers the best view of the Danube, the Thebener Kogel (in Slovakia) with Devin Fortress as well as of the nearby **Bratislava**, whose suburbs you reach shortly after the national border near **Wolfsthal**.

The Slovakian capital has plenty of sights in store for you – as a fitting conclusion to your bicycle tour. They include the four-tower **castle**, the city's landmark, or the **Slovakian National Theatre**, the historical center with Hviezdoslavovo Namestie-Boulevard or the **bridge Most SNP** featuring a futuristically designed restaurant (»UFO«) with a panoramic view.

**Bratislava**, the capital of Slovakia, offers numerous sights to end the bike tour: The four-towered **castle**, the landmark of the city, rebuilt after a fire in 1811, reigns on a rock 85 meters above the Danube. In the **old town**, baroque palaces line up, between which visitors will find several churches. The **Slovak National Museum**, the National Theater and the **Jewish Museum** are also part of many excellent sightseeing programs. If you want to say goodbye to the Danube, the versatile companion along the bike tour, we recommend a walk along the river. In Bratislava, the **Danube bank** shows its many facets, from the sand beach to the party beach. Finally, visitors may celebrate the completion of the trip with a drink – In the restaurant atop the pillar of the **Bridge Most SNP**. Due to its shape, the locals have given it the nickname »UFO«.

## DANUBE UPPER AUSTRIA BIKING REGION – EXPLORE THE AREA AROUND THE INN AND DANUBE CYCLE PATH

Biking is freedom. You determine the speed, route and destination. And everything in-between. And it is wonderful to glide through the legendary natural backdrop of the Danube region. This is the Danube like you have never seen it before: **15 new circular tours** between **Schärding and Grein** offer a chance to cycle along the Danube and Inn rivers as well as branching off into the **surrounding region**. On a voyage of discovery through the Danube region, you will clock up some metres of altitude but be rewarded with **dreamy views of the extensive river landscape** from the mountain ridges. So why not try departing from the Danube Cycle Path and returning back to your starting point on the Danube via a **mountain circuit, offering a completely new perspective**. The new tours are particularly suitable for enjoyable **e-biking** excursions and take you to some magnificent treasures of nature and culture. They also invite you to **meet people** along the way: **craft workshops** with a long-standing tradition, **chefs** with a great passion for indulgence or **producers and direct sellers** bursting with new ideas. Grape must which tingles on the tongue, pralines made from hand-crafted chocolate or delicious speciality cheeses. For those who want to cycle along the Danube Cycle Path more often and explore the **entire cycling region between the Inn and Danube rivers**. There are so many possibilities to discover the Danube region and all its facets in Upper Austria.

More information, detailed maps for download and e-bike hire options at hotels and hire points can be viewed at: [www.donauregion.at/radtouren](http://www.donauregion.at/radtouren)

## // MOUNTAIN BIKING REGION OF GRANITLAND BIKING BETWEEN DANUBE REGION AND MÜHLVIERTEL

The network of routes included in the **mountain biking region of Granitland** in the Mühlviertel covers a distance of 950 km. The area extends from the Danube to the Czech and Bavarian borders and comprises **17 varied mountain biking tours**. 37 communities and numerous partner establishments are included along the way – hotels, guesthouses, cafés, service points and taxi companies.

The dreamy and hilly landscape of the Mühlviertel and tours of different difficulty ratings make the Granitland a real paradise for mountain bikers.

The entire area is surrounded by the »**Great Granitland Circuit**«, a varied route which is a means of exploring the whole mountain biking region. Each town along the route can serve as a starting point – there is a dense network of accommodation establishments here which can take care of your luggage transport to your next lodgings, where required. And of course, there is **no shortage of granite rock** along the way in the aptly named Granitland region!

Whether nature education trails, special landscape features, rock formations or people who work with rock – the Granitland, or land of granite, certainly lives up to its name!

CYCLING REGION DANUBE LOWER AUSTRIA  
PURE CYCLING ENJOYMENT IN LOWER AUSTRIA

In Austria's historic heartland, the magnificent cultural heritage and unrivalled variety of landscapes in Central Europe are linked together with a dense network of cycle paths. Branching off from the Danube Cycle Path, a wide range of cycle trails await which invite you to take a detour into the hinterland region. Turning off from the Danube Cycle Path, the **Ybbstalradweg**, **Erlauftalradweg** and **Pielachtalradweg** trails lead into the Mostviertel region. The three valleys can be explored with ease along the well-established trails. Anyone wishing to visit the state capital of St. Pölten and mountains of the Mostviertel is recommended to tackle the 111 km long **Traisental-Radweg trail**. Leisure bikers can instead complete a section by taking the Mariazellerbahn narrow-gauge railway. From the famous pilgrimage site of Mariazell, the journey continues on into the wide Danube valley. The **Kamp-Thaya-March cycle route** passes through two regions of Lower Austria: through the Waldviertel and Weinviertel forest and winegrowing areas and along the Kamp, Thaya and March rivers throughout. The 427 km tour can also be easily completed in individual stages. The last section leads through the Marchfeld to the area of the Donau-Auen National Park where the cycling route then rejoins the Danube Cycle Path at Hainburg. As an alternative to the Danube Cycle Path, the route between Traismauer and Tulln can also be completed along the **Tullnerfeld cycle path** through the hinterland region. It runs through the primitive wetland landscape and Austria's longest road lined with wine cellars, until the route joins the Danube Cycle Path again in the garden town of Tulln.

## // CYCLING REGION DANUBE LOWER AUSTRIA

PURE CYCLING ENJOYMENT IN LOWER AUSTRIA

From the waters of the Danube to the wines of the Wagram, the **Wagram Tour** leads to the cultural and culinary highlights of the winegrowing region over a distance of 47 km. Starting from the shady Danube wetlands of Grafenwörth, spectacular views follow along the panoramic route on the edge of the Wagram. The flagship sights of the region include idyllic wine cellar routes and striking loess formations.

Following its journey through Vienna, the Danube flows through the region of Carnuntum-Marchfeld. The tour of the same name provides the chance to admire one of the last big wetland landscapes at the heart of Europe in the form of the **Donau-Auen National Park**. In addition to running through the natural landscape, the path is also dotted with testaments to the Roman era. The »Heidentor« is probably Austria's most famous architectural monument and the trademark of the Carnuntum region. The **Carnuntum-Schloss-Hof-Bratislava tour** promises an exceptional cycling experience. It links the two rivers, the Danube and March and cyclists can also complete section of the route on Slovakian soil.

Starting out from the mediaeval town of Hainburg, the **Hundsheimer Berge Tour** leads to the renowned winegrowing resort of Prellendorf. Cyclists can experience the history of the Romans and mediaeval times in Hainburg, Bad Deutsch-Altenburg and Petronell as well as being able to sample the multiple award-winning red wines of the Carnuntum winegrowing region.

### PROMISING ROUTE IN WORLD HERITAGE REGION WACHAU

The stage through the Wachau world heritage is one of the most beautiful along the entire course. Whether for sport or leisure – there is much to discover in the Danube hinterland: sunny wine vineyards and orchards, magnificent abbeys and castles, scenic hills and villages. Last but not least, the many culinary stations, from rustic wine taverns with cozy inns to award-winning restaurants are all worth a stop. Ferries in Arnsdorf, St. Lorenz and Rossatz offer an easy switch to the opposite Danube bank.

# E-CHARGING STATIONS ALONG THE DANUBE CYCLE PATH

## E-CHARGING STATIONS ALONG THE DANUBE CYCLE PATH IN UPPER AUSTRIA:

The Upper Austrian energy companies, LINZ AG and Energie AG Oberösterreich (Upper Austria) made it a priority to expand the construction of charging stations. Many bike friendly businesses along the route can offer therefore free E-charging stations for E-bikers.

Bicycle-friendly accommodations, which have been certified with the bett+bike seal of quality, also welcome travellers just passing through for one night. The bicycles are securely stored and it is possible to dry wet clothing and gear. The hosts help with the most important tools for simple bike repairs or arrange for a contact to the nearest repair shop. During the course of this year travellers can search for suitable bett+bike accommodations along the Danube already before their holiday at [www.bettundbike.de](http://www.bettundbike.de). A link to the website of each accommodation is provided, as well as information on the range of services for cyclists, prices, number of rooms or the distance to the nearest train station.

## // MOBILE AROUND THE DANUBE CYCLE PATH

To make your individual travel plans easier, we have compiled some information on arrival and departure.

Travelling by rail means travelling in comfort – even with your bicycle. For more information and for timetables, please visit the Deutsche Bahn (German railways) website at [www.bahn.com](http://www.bahn.com) or the ÖBB (Austrian railways) website at [oebb.at/fahrrad](http://oebb.at/fahrrad), or use the ÖBB app or call +43 (0) 517 17.

Regional buses are also well-suited to reach the Danube Cycle Path – [www.postbus.at](http://www.postbus.at)

### Bicycle transport with the ÖBB (\*)

**Reservation and tickets:** At the ÖBB, you can take your bike in most local and long-distance trains. A special ticket is available at the price of 10 % of the full price (2nd class) of the desired journey, but costs at least 2,- Euro.

In addition, you can also purchase **weekly or monthly passes** for your bike. With the »**Ein-fach-Raus« bike-ticket**, small groups of two to five people travel with their bikes for a reasonable price all-day in all S-Bahn-, Regionalexpress- and Regional-Trains. There is the **Biking International Ticket** for international routes. Prices are set at a flat rate of 12,- Euro for each route.

**Long-distance transport:** In regards to long-distance transport (Railjet, Intercity, Eurocity, Nightjet), it is compulsory to make a bike-reservation, due to the limited number of bike racks.

**Local Transport:** no bike-reservations are required on local transport (S-Bahn-, Regional-express- and Regional-Trains).

\* Subject to change, price as of August 2021

## // MOBILE AROUND THE DANUBE CYCLE PATH

**Passau is the classic starting point for a multi-day tour along the Danube.**

If you are coming by car, you have several possibilities to park in Passau for the duration of your cycling holiday:

**Parking lot Passau** | Tel +49(0)851/50015  
**Globus Group Parkservice**

Tel +49 851 989000168

**Donau-Schiffs-Reise-Center Eckerl**

**Central Parking Lot Passau**

Tel +49 211 5867070

**Parking lot Donaupassage**

Tel +49 30 319871555

Please note that the parking fee is payable on site.

**Danube Cycle Path from Schärding:** The baroque town of Schärding comes highly recommended as an alternative starting point for the Danube Cycle Path. From there you can reach Passau along the Inn Cycle Path – just 15 km distant – to join the Danube Cycle Path.

**Long-term parking in Schärding:**

**Cemetery car park**

**Parkhaus Schärding car park**

Tel +43 7712 3154-219

**Austria Radreisen car**

(€ 6,- per day) | Tel +43 7712 5511 0

**If you would like to travel stress-free along the Danube, you can combine the bike tour with a boat trip.**
